The unique, outstanding international degree that prepares you for the USMLE® examination

An academic opportunity to become a medical specialist in the USA.*

Program structure

A 6-year program of 90 courses structured in 12 semesters and 500 academic credits, through which you will receive the necessary preparation for a successful performance in the USMLE® examination.

Year one and two

During these first two years, you will start with medical sciences such as morphology, physiology, nosology and therapeutics given in English and Spanish. In this period, theory and practice come together in the lab, with highly-advanced technologies, that you will start using during the first semester.

Year three and four

In the third year, you'll begin your clinical training divided in sixteen weeks of class each semester. You will also have access to workshops for the development of cultural skills, training you to practice medicine in an international environment.

In the third and fourth years, you'll begin your clinical training having the option to develop your clinical training in over 40 hospitals in Mexico through the clinical affiliation of the "Anahuac Universities Network" with hospital centers all around the country, the US or some centers in Europe.

Moreover, through our affiliation with AMO opportunities you can connect with U.S. physicians and institutions for clinical experiences.

Fifth Year

This is the internship year. A part of your program that is a mandatory year, essential for the medical student to integrate and consolidate the knowledge you acquired during the previous years of study. You can enrolled for your internship year in our affiliated hospitals in México, USA, or Europe.

You will have 6 months of supervised clinical practice in Internal medicine, surgery, pediatrics & gynecobstetrics anrd emergencies, and six months of supervised clinical practice in elective clinical rotations.

**Subject to the Immigration Laws in force in the United States at the time of application. Aplicants for any residence program in the US must verified their Immigration elegibility.*

Sixth Year

The sixth year is "Social Service". All students of any profession must perform social service in the terms of the mexican laws in order to obtain a degree. Corresponds to the final year of professional development of medical students in higher education institutions, assign to a urban or rural Primary Health Care Facility of the Mexican government, throughout the state of Quintana Roo.

After concluding the 6-year program, an official certificate of studies legalized and apostilled by the Mexican Government is awarded to students who pass all courses of the program and USMLE® examination STEP 1 and STEP 2 CK. Furthermore, the student will receive an Institutional official Title as a medical graduate that certifies completion of the program.

What is the USMLE® Examination?

As an International medical student/graduate that pursues ECFMG Certification you must submit an Application for ECFMG Certification. The Application for ECFMG Certification consists of an on-line application and the Certification of Identification Form (Form 186) available through ECFMG's Interactive Web Applications (IWA). The Application for ECFMG Certification requires that you confirm your identity, contact information, and graduation from or enrollment in a medical school that is listed in the World Directory as meeting ECFMG eligibility requirements. The examination requirements for ECFMG Certification include passing Step 1 and Step 2 CK of the USMLE®.

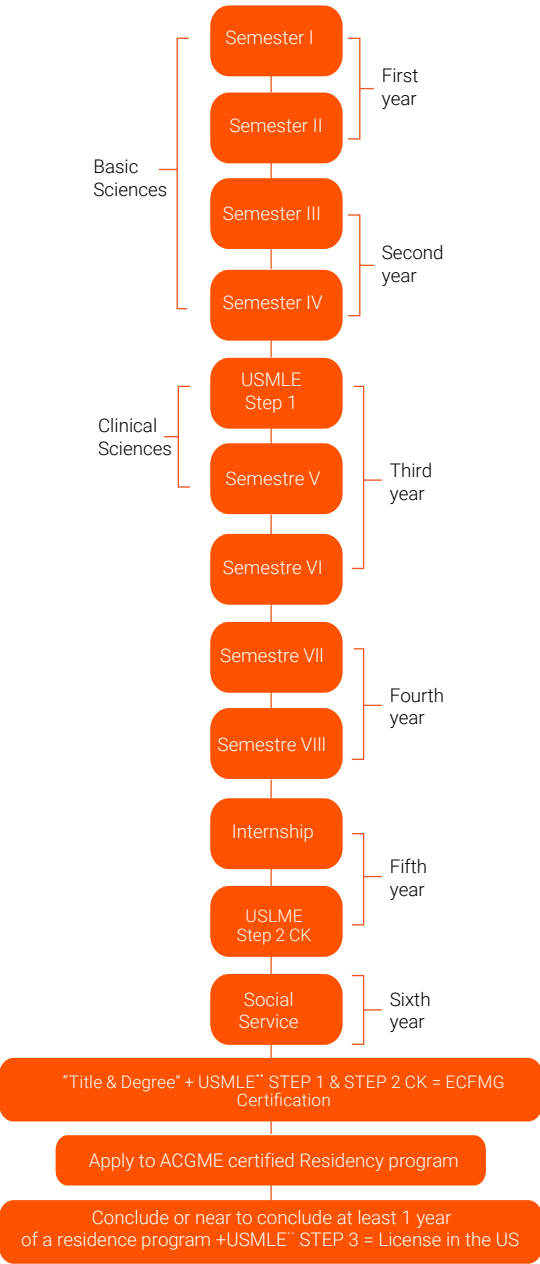

USMLE® STEP 1: assesses your understanding of and ability to apply important concepts of the basic sciences to the practice of medicine, with special emphasis on principles and mechanisms underlying health, disease, and modes of therapy. You will have to take USMLE® Step 1 at the end of your basic sciences formation. In order to advance to your clinical sciences formation, it is mandatory that you take and pass this examination within six months after finishing your basic formation.

USMLE® STEP 2 CK: assesses your ability to apply medical knowledge, skills, and understanding of clinical science essential for the provision of patient care under supervision and includes emphasis on health promotion and disease prevention. Step 2 CK ensures that due attention is devoted to principles of clinical sciences and basic patient-centered skills that provide the foundation for the safe and competent practice of medicine under supervision.

You will have to take USMLE® STEP 2 CK at the end of your clinical formation (Internship) in the fifth year. In order to advance to your sixth year (Social Service), it is mandatory that you take and pass this examination within six months after finishing your Internship.

USMLE® STEP 3: assesses your ability to apply medical knowledge and understanding of biomedical and clinical science essential for the unsupervised practice of medicine, with emphasis on patient management in ambulatory settings. The USMLE® program recommends that, for STEP 3 eligibility, you should have completed, or be near completion of, at least one postgraduate training year in an accredited US graduate medical education program that meets state board licensing requirements. Is the final examination in the USMLE sequence leading to a license to practice medicine in the United States without supervision.

How can you become a medical specialist in the US an get a medical license?

Learning to practice medicine in both English and Spanish. You will be taking intensive courses or summer courses. Being bilingual and culturally aware will make you a physician with a much more international approach, valuable in the eyes of clinical administrators around the globe.

- B2 level (upper intermediate or advanced) of English.
- B2 level (upper intermediate or advanced) of Spanish.

- We have a rolling admission process, which means we review applications and enroll students year-round. This process takes no longer than 10 days.
- We offer a pre-medical course to take our students into the world of medicine, serving as a preview of the journey they will begin.
- We also give you the opportunity to begin medical school twice a year, in January or August.

The best university life experience

University life is an important part of the integral development of our students, both in and outside of the classroom. It offers space, moments and opportunities to listen, support and create.

Student Relations

Our students share and promote the ideal of leading by example, and their capacity for initiative and commitment reaches its full potential by integrating individual talent into initiatives organized by the Student Societies, the Federation of Student Societies (FESAL) and the Association of Foreign Students Anáhuac (ADEFA).

Sports

We offer you more than 20 areas of study as well as elective subjects that enable students to develop their skills in first-class sports facilities. Football, soccer, tennis, basketball, volleyball, archery, golf, diving, paddle-boarding, pilates, sport climbing, crossfit, taekwondo, cheerleading team, jiu jitsu, among others.

Art and Culture

An extensive variety of international-caliber cultural and artistic events and workshops with a focus on wide-ranging development. Workshops on salsa, painting, theater, hip hop, and groups representing dance and music.

Social Commitment

Acción Social Universidad Anáhuac (ASUA) is a student body with volunteer projects that foster the development of genuine awareness based on universal values. It promotes students to take a lead in improving the living conditions of those in need of material, human or spiritual support thus enriching our students’ all round development while transforming into true positive-action international leaders.

Campus Ministry

The Campus Ministry offers spiritual care to our students interested in having this service. In addition, they organize and promote different activities and programs which seek to create awareness about the transcendent reality of every person, in the search for the ultimate meaning of one’s life, as well as the commitment that we all have with our fellow men, particularly those most in need.
